

CAT #PAR56
PAR 56

Specifications:

The luminaire shall be a 300 to 500-watt lamp holder for PAR 56 extended mogul end prong lamps. The fixture shall be constructed of 22-gauge sheet steel with a hinged and lockable spun steel back cover for lamp access.

The fixture front shall be equipped with color filter frame holder. Ventilation holes shall be provided with light baffles to reduce heat build up while minimizing stray light beams.

Relamping shall be accomplished by unlatching the spun steel rear cover and swinging away from the body on integral hinge. The U.L. listed porcelain end prong socket shall then be disengaged from the lamp and swung aside.

The luminaire shall be supplied with a rigid flat steel mounting yoke, a spring tension side-locking wheel, and a three wire Teflon lead encased in black fiberglass tubing.

Finish shall be Epoxy Sandtex black, electrostatic application.

Light output of the luminaire shall be a function of the lamp selected. See lamp substitution data.

The Luminaire shall be U.L. and c.U.L. Listed and labeled for use with up to a 500-watt lamp. Luminaire shall have a New York City Calendar Number.
