Discontinued February 2019

THEMED ARCHITECTURAL LIGHTING
Catalog Number IQWW*

Fixture Type:

The IQ Wall Wash is a compact luminaire with a proprietary designed A-Symmetrical reflector that optimizes the output of double ended T3, 78-79mm quartz lamps. This unit is designed for use on track, canopy or portable applications and can be used anywhere a broad even field of light is needed in both horizontal and vertical planes. The IQ Wall Wash accepts optional barndoors, spread or linear lenses as well as stripped glass and dichroic filters. Typical applications are museum, retail, restaurant, art gallery and other architectural venues.
