

ODEC Outdoor Ellipsoidal

Discontinued March 2022

The Altman ODEC is an outdoor ellipsoidal with 15°-35° or 30°-55° zoom focus, framing shutters, glass/steel pattern projection capabilities, internal & external mounting options.

The upper housing opens and allows for maximum accessibility during installation, lamp changes or lens adjustments. Two stainless steel safety cables hold the lid securely when the fixture is opened. The lid is secured to the body with four side-mounted link-lock latches that provide a water tight seal. Padlocks of appropriate size can be added for security.

The proprietary highly polished reflector is engineered for use with T6 G12 CDM/CMH lamps for maximum output. The lens focus adjustment is via Teflon guides throughout the focus range. Focus is secured by way of brass thumb screws.

The ODEC comes complete with pattern holder, image clarifying donut & internal color media holder.

ODEC

Product Features:

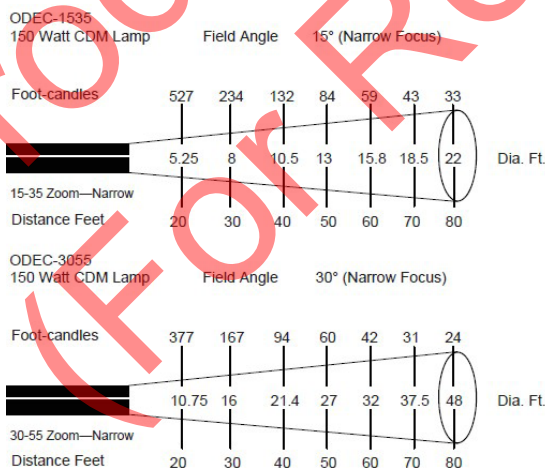

- 15-35 or 30-55 degree zoom capabilities
- Low-friction Teflon® lens glides
- Utilizes 12,000 hour CDM lamps with high CRI
- Low Noise, high efficiency electronic ballast
- Easily adjustable stainless steel shutters
- Included pattern holder accepts standard B-Size glass or steel templates
- Lamp centering and peak / flat field adjustment knobs
- Compact, rugged welded aluminum & stainless steel fabrication
- Link-lock latches for security
- Designed for indoor/ outdoor applications
- Cable entry glands and mounting holes located on bottom of luminaire
- Secured safety loop in fixture body
- cETLus listed for wet locations
- Made in the USA
- No cost technical support for the life of your product

Specifications

Materials:	Corrosion-resistant materials and hardware
Head:	Welded aluminum
Input Rating:	100-277VAC (auto-ranging), 50/60Hz
Watts:	70W (with 70W lamp / ballast); 150W (with 150W lamp / ballast).
Lamp/Socket:	70W or 150W UV Block G12 Ceramic Metal Halide lamp. 5kV pulse rated.
Alignment:	Lamp adjustment is fully adjustable in 3 axis with the use of two heat resistant concentric knobs.
Lens:	Crown Glass (white plate) with anti-reflector coated surfaces.
Reflector:	Proprietary curve, specular aluminum.
Focusing:	Lens movement contained within body, adjustable with brass thumb screws.
Weight:	15-35 Degree Models: Approx. 35 lbs. (15.9 kg); 30-50 Degree Models: Approx. 28 lbs. (12.7 kg)
Construction:	1/8" heavy-gauge aluminum construction (body and lid).
Window:	Glass, 0.25-inch (6.35 mm) thick, 6-1/4" diameter.
Environment:	Indoor/Outdoor; -10° to 120°F (-23° to 49°C).
Latches:	Link-lock No. 3, stainless steel; can be secured with padlocks (not supplied, by others).
Finish:	Black or White. Custom colors - consult factory.
